

Welcome to the Scottish Fire and Rescue Service Community Board Performance Report. This performance report is designed to provide citizens, stakeholders and partners with information relating to Community Board based activity undertaken by the Scottish Fire and Rescue Service.

Whilst using historic statistical benchmarking data, consideration must be taken of the somewhat random nature of fire related incidents and events, and how this can pose difficulties in interpreting emerging patterns and trends. This is of specific relevance where Community Board level data is analysed due to the relatively small number of actual incidents/events that occur in Community Board areas.

However, regardless of statistical anomalies, emerging patterns and trends in fire related incidents and events can assist the Scottish Fire and Rescue Service and Community Planning Partners plan and implement preventative intervention initiatives to target reducing fire related incidents and events.

Below is a list of subjects the operational crews have been focusing on within this period. Each subject has been covered both practically and theoretically and recorded in the Fire Service Training recording system.

	July	August	September
Training Subjects	BA & CFBT Tac-Vent	RTC & Extrication Casualty Care	Knots Ladders & Pumps Water Awareness
	Building Construction	Surface Spread of Fire	Lithium-Ion Batteries

Oban North & Lorn	1	1	0
Oban South & the Isles	1.3	1	3
	2.3	2	3

Oban North & Lorn	8.3	9	10
Oban South & the Isles	4.6	9	3
	13	18	13

Oban North & Lorn	19.6	16	24
Oban South & the Isles	28	24	31
