Walking andcycling in the area is reasonable because of the relatively low level of traffic but roads are single track with few passing places. Opportunities for improvement are limited however because of the topography of the area. The canal tow path provides **ansatgeod** quality route to Lochgilphead and Ardrishaig.

## Q2. Public Transport:Does public transport meet my needs?

The roads are single track with arking places and no pavements. Cars generally take priority, example there are no passing places between my home and the canal often resulting in me and my dogs having to climb the bank to allow cars to pass us. However traffic volumes are low and improvements would be limited by the topography of the area.

Q4. Streets and SpaceDo the streets and public spaces create an attractive place that is easy to navigate?

## Q5. Natural Space:Can I experience good quality green spaces?
