Corporate Outcome No.5 Our economy is diverse and thriving

FQI Comment

Performance across the Development Management Service continues to be impacted as it works through a backlog of casework that has accumulated through th Covid pandemic and which has been exacerbated by extended periods of operating with reduced staffing levels due to **histeresitwient** to vacant posts, and the introduction of National Planning Framework 4. Whilst vacancies across the service have now largely been filled the focus of officers remains geared toward the resolution of statutory casework with the handling of **app** plication enquiries afforded wer priority in caseload management. To assist with the management of reduced customer expectations the target for responding **tapp** enquiries has been temporarily extended to 6 weeks. During **FOS** pre apps were responded to across ABC. 57.1% were issued within 6 weeks. Responsible person: Peter Bain
